

Marlis Stagat.

Never start ceasing, never cease starting (Marcus Tullius Cicero)

I am Marlis Stagat, 49 years old and I have two grown-up children aged 23 and 25.

Bad Segeberg is the centre of my life. This is where I live and this is where I grew up.

Together with my handicapped daughter and my dog Paula, I live in Klein Gladebrügge – just next door. Currently I am an entrepreneur and manage both the insurance agency “Provinzial am Kalkberg” and the “Erfolgswerkstatt-Nord” with training, coaching and consulting. Since 2016 I have been chairman of the business association „Wir für Segeberg e.V.”.

As your mayor, I will represent your interests with passion, leadership, a sense of responsibility and expertise. Together with you, I will shape the future of our favourite city. Shaping the future - together, with each other, for each other.

Marlis Stagat
Bürgermeisterkandidatin.

Together we are Bad Segeberg.

Marlis Stagat
Running for Mayor.

Together.

Bad Segeberg is our home. We should feel safe and comfortable here - regardless of the age. It doesn't matter whether we have just moved here or whether we are the third generation to live here. Regardless of gender, skin colour, hair colour as well as homeland / origin and religion.

But what should our Bad Segeberg look like in the future? How do we want to live here in 5, 10 or 20 years? What we need are a vision and common goals. Of course, we cannot afford all the projects at the same time, so we have to prioritise well and use our resources wisely and purposefully.

To only administrate and having a policy of only drastically saving costs will simply result in a huge redevelopment backlog in some places and at the end, as a result lead to significantly higher overall costs.
Let's shape Bad Segeberg's future together!

Listen. Inform.

As Bad Segeberg's Mayor, I will listen to you. The desired proximity to Bad Segeberg's citizens as well as the wish to enhance civic participation are not be only empty words. I am committed to implement the following points:

- Citizens' Office and Citizens' Hotline
- New citizens' evening
- Regulars' tables: e.g. volunteer / entrepreneur
- youth democracy
- social media presence

Your opinion makes the difference!

Who does what and when? Information is important to create transparency. Together we break new ground by joining persistence with modernity – thereby you will gain an overview.

- a website with added value
- local press
- quarterly letters
- social media presence
- regular podcasts
- newsletter

Transparency creates trust.

Service for you!

Formalities are necessary and often ensure security. In addition, I will apply my energy to enable that your contact with the administration is as pleasant as possible. To put it in a nutshell: I will take care of the implementation of the following points:

- Citizens' Office: Contact point for you with service times from Monday to Friday
- Defects app: possibility to report deficiencies in our city
- Simple complaint management: establish professional and consistent processes
- Digitisation: use advantages and develop them further

My goal: Noticeable service for you by the town hall!
